CASH IN ADVANCE WE STILL NEED MORE GOLD

Six Months ...

The old saying that gold is where you find it has received where you find it has received fresh proof by the opening of a new gold mining region on the shores of Lake Mead in Nevada. If you don't recognize Lake Mead by name, it is the great new artificial reservoir in Boulder Canyon, created by the building of the Hoover Dam.

Character reveals itself through the words and deeds of a man. He may try to conceal his real spiritual condition and may assume an outward appearance of piety but he need not say many words, nor meet many of life's problems, before his true condition is revealed.

The gold has been there always, but nobody could get to it until the water impounded by the dam the water impounded by the dam rose high enough so that boats could reach the previously inaccessible slopes of the steep mountains bordering the canyon. Now a real "gold rush" has started, since a prospector in a motor-boat discovered a promising vein of gold-bearing rock a year or so ago.

The forbidden thing is the taking the same and the leading up to the expression of that reverence in abstinence from swearing and from idle talk.

The Largest Company of Its Kind in the World

# Deceased Policyholders Received Benefits Amounting to 7 Times the Premiums They Paid In!

• During the Prst eight and one-half months of 1938 (to be exact, during the 256 days ending September 13th) Brown-Service saved the people of Alabama \$1,277,500.00 in funeral costs! From each policyholder whose death occurred during that period the Company received an average of only \$44.74 in premiums from the time the policies were taken out until death occurred.

 In other words, since January 1st, 1938, the Brown-Service Insurance Company SAVED the families of deceased policyholders the enormous sum of \$1,277,500.00 in funeral costs for those buried during these 256 days . . . equal to a saving of over \$4,900 per day in the aggregate to the families of these deceased policyholders . . . a saving of \$1,277,500.00 which would have had to be paid out in funeral costs had they not been protected by Brown-Service Insurance!

. Brown-Service Is therefore truly "An Alabama Company Serving Alabamians." We operate exclusively within Alabama . . . all our activities are in the interests of Alabama and Alabamians . . . we are investing all our assets within Alabama . . . and by maintaining a payroll of more than 600 employes and with 106 Funeral Homes throughout the state to service our policies Brown-Service is not only building up a greater Alabama, but is at the same time helping in many ways by holding down the cost of funerals in our state.

• A Brown-Service representative resides in your neighborhood and without obligation will be glad to call at your convenience and explain the benefits of Brown-Service Insurance for you and your family.

### BACKED BY FULL LIFE INSURANCE RESERVES!

• Each and every policy on which premiums are paid to Brown-Service is backed by full Life Insurance Reserves amply sufficient to carry out the contract. Notwithstanding the fact that many of the policies now in force were issued BEFORE Full Life Insurance Reserves were required by law, the Company maintains on EVERY policy, regardless of when the policy was issued, Full Life Insurance Reserves!

• Brown-Service Insurance Company is the ONLY similar Insurance Company in Alabama maintaining \$100,000.00 on deposit with the Alabama Treasury—the ONLY one maintaining an additional \$100,000.00 Contingent Fund for possible epidemics—and the ONLY one with \$1,500,000.00 Policyholders' Reserves and \$2,500,000.00 Assets!
